RSC Apple MacBook Program 2023

Our Apple MacBook program for 2023 will be facilitated by JB Hi-Fi Education. The College has worked closely with JB to ensure that Year 10 students have access to high-quality, intuitive devices that are optimised to work seamlessly with our current operating systems.

It is strongly recommended that **you complete your order by December 3rd** to avoid any possible supply issues.

We are recommending that families buy the following:
- MacBook Air 13-inch / Apple M1 Chip / 8GB / 256GB / Space Grey - $1,356
- STM Ace Vertical Cargo 13-14' Bag w/ Strap - $43
- STM Dux for MacBook Air 13 Retina M1 - $50.22

Total: $1,449.22

Families might also like to include the **optional** AppleCare+ which provides up to 3 years of service and support for $205.

* JB are offering a 12 Month Interest Free service for eligible families.

How to order:
JB have created an online portal specifically for the RSC community to order their devices.

1. Please go to the following web address: **www.jbeducation.com.au/byod**
2. Use **RingwoodSC2023** as the school code and select 'From Year 9 to year 10'
3. Select 'School Pickup'
4. Select the device and required options and complete your purchase and payment options.

JB will deliver all devices to the College in January at which time the IT services team will set up the devices to connect to our network, installing certificates and permissions to use the College infrastructure (printers, Compass) and connect devices to our self-service software system.

Please note that if a family chooses to use a different device, this may cause compatibility issues and the device must still be delivered to the school for certification prior to the beginning of the school year.

Year 10 Learning Device Induction & Collection 2023

Please register with your child's name as known by the school, this is a student-only event in preparation for the start of Term 1.
